

IN LOVING MEMORY

OF
RYLEIGH ISABELLE

*"I carry your heart with me, I carry
it in my heart"*

I, too, have been told that I have a blocked throat chakra. The Throat chakra is responsible for how humans express themselves. My problem is not expressing myself, but rather, I am addicted to my own suffering. I am addicted to pain. I am addicted to destruction. Since the beginning of time I have been living in a vicious cycle of create and destroy, create and destroy...but enough is enough! A lot of my destruction stemmed from not accepting the fact that I am a Mother and I lost a daughter. The most excruciating pain that any woman will ever experience. With that being said there is a lot of talk about suicide and death in this book. I also use a lot of sardonic humor, so I would proceed with caution.

Within these pages lie words that were lit up from some of the darkest parts of my soul. Most of these poems were written with tears streaming down my face because I was finally facing myself. It had gotten to the point of fighting against Mother Earth for 10 years and leading up to the anniversary of my daughter's birthday, April 6. On that day I wanted MY story to end...and I tried so hard for three days, I tried to take my own life, and every day, instead of me seeing the light, Mother Earth filled me with love and knowledge instead. So now, I get to write my story for you. I am tired of fighting against myself and fighting against creation. It only took three days of trying to end my life to get me to understand the WHY, to get me to see the connection, and I can 110% say the connection is and will always be YOU.

I pray that one may find acceptance with every trauma that they have ever been through, so that they may learn to release and let go of that which no longer serves them. I pray for all to become enlightened. I pray for peace. I pray for Love. Most importantly, I pray to the most High for breathing life into me giving me this gift of Creation.

The Devil

Disconnected
dissociated
the living
the dead
Godly
Holy
what a surprise
overstimulated
what is calm?
consuming death
carnivore
light by darkness
artificial Light
artificial Clouds
artificial intelligence
you are fake
fake light
no
dead inside
disconnected
dissociated
the living dead
energy consumer
Root to throat
self expression lost
crumbling in time
its now mine
confused
its now mine
lost innocence
lost battle
oh why oh why
please don't let me die

Becoming You

Woman
Goddess
Creator
love
GOD
all things light
all things dark
all things intertwined
until the end of time
stay in your Holy
stay your Divine
seeing You
feeling you
becoming You
My Mother
so kind
but why
why mother
why must we be so kind
especially in between the inner thighs
Will you forgive me?
I hope so...
I love you Mother
until the end of time

A light is born

Aug 3, 2014
breath of life
into existence
into reality
extinguished
Mother Earth
lover
of all things Dark
lover
of pain
all things light
why can't you see me
gray eyes
never the same
loving you
forgiving you
forgive me
for this pain
for saying your name
Mother Earth

Flame

Two flames dancing in the wind together
a spark in time
like a flowing river of rage
coursing through my veins
feeling you
but not seeing you
rippling around my throat
cutting into my soul
never letting go
feasting on me
from the inside out
why won't you cut me out
a spark to a flame
so this is how you got your fame

Little flower

Free yourself
into the light
see the divine
mirror image
a body of water
do not be afraid
just remain contained
look into the light
for I is only your pain
your pain
Just be contained
Your power
just like a little flower
plucked of her essence
oh, my sweet little flower
displaying so much aggression
free yourself of all this essence

Lotus Flower

Through the mud
a black hole within
climbing through
reaching
out of darkness
into the light
we breath again
as one
for your time
has come
“Muddy vision”

Saturn

Stubborn
I hate you
everything black and blue
abiding
law
legalities
just let me be free
but you must see me
having no patience
i simply cannot
but must
stability
roots growing into the earth
patience
everything I stand against
I hate you
but I need you
a beautiful Saturn
Within
Lights up again

PAIN

Is pain equal to love?
Or is love equal to pain?
The dark
The light
The pain
The love
The spark of creation
the spiral within
"Coiled Snake"

Now give me life

Breathe into me
cleanse me
awaken me
I know who I am
my internal struggle
I forgive you
please forgive me
learning to love myself again
the Monster inside
she is tame
but we have to love now
darkness to light
Mother my demons
forsake my love
never above
never below

Mother Earth,

I am sorry
Please forgive me?
Love,
Meagan

Let it all out

Tears falling down
Crashing thunder into rain
coursing through my veins
feeling all this rage
turning it to pain
letting it grip around my name
hating our same names
a feeling I cannot explain
just like the falling rain
"Wash me away"

Butterfly

Fluttering wings
seeing you in a dream
but only the in between
the eye I see
awakening in my dreams
fluttering all around me
coming far and in between
floating in the fields above me
in these serene dreams I see

A Fox

My little fox
Oh my little fox
Creating you
Pixelated reflection
perfection
everything I wanted to be
driving me crazy
a Beautiful light
a beautiful guide
strong as a tree
wishing it was me
learning to love myself
for me
it was always just the dream
needing you
to show me
how
"i thank you now"

You set me free

Coming into my life when I needed you the most
like a burning fire cord wrapped around my heart and soul
gripping my lungs
not knowing this feeling
not surrendering
not giving in
in at first
but i know now
you were the vessel to my own awakening
as I filled you up to make you feel whole
for the first time in a very long time
i was the light for your darkness
as you saw the depth in mine
you showed me that it is okay to fully surrender
surrender to myself and surrender to you
letting go and releasing my ego
because you saw me for me
at this moment of submission
I know I had to release you
because your mission and purpose
with me was complete
you were just a mere catalyst
to help me discover my purpose in this lifetime
and you know this
you will always feel me inside of you
and we will meet again
you set me free
"Twin flame"

Setting you free

Don't hold back
she sets you free
that moment in time
release into her all your pain
anger
self doubt
you're so well at hiding it all
all those layers
come on out
logic and reason
tis' the season
so many emotions
you don't see it
but i do
when your body touches mine
looking into each others eyes
my soul into yours
no more pain
I take it all away
now you feel whole
I will carry your pain
like a river cursing through your veins
I make you feel whole
gripping around your heart and lungs
bringing in the light
but it will fade
darkness will come back
suffocating your soul
too late
you'll release
the light you once had
onto me
knowing it was you all along

Ripped apart at the beginning of time

Caged around your desire
I saw you
reflection of me
blinded
holding back
clouds of smoke
clearing your aura
afraid
scared
freeing myself
words ripping through me like knives
forcing me to free my mind
no more smoke
I see you clearly now
the same soul
reflected
intertwined
I just needed to unclog my mind
one again
together
feel it
never let go
feel it within
feel it in your soul
my twin

My existence in this body
soul chose this body
this life
but why i ask
this feeling
who i am ?
warrior spirit
lust
love
fertility
death
my ego
clouding my judgment
clouding my soul
go away
why
why
so much pain
so much darkness
why me
screaming
why am i so special
i'm tired
tired of fighting
pain
anger
hurt
this open heart bleeds
suffocates
reborn
rebirth
“what is my purpose?”

Death

Cold
Sharp
Empty
Hollow
Painful
Dark
Rebirth
Reborn

Loving yourself

This reflection
the one in the screen
everything i dreamed to be
perfect
beautiful
this reflection in the mirror
ugly
fat stupid
gaps
but why
warrior spirit
empathetic
Beautiful Butterfly
that's why
"The devil hates its reflection"

Dark as night

Black as day
red as the river that flows within
I hold you
close to my flame
as we breath
silence stills within
against the wind
my heart sinking in
ripping me limb by limb
because I just want to see you again
but did you know
the pain once felt
on this
insane memory we lay
laced in ego and disgrace
surround begotten son
for you are the one
to calm me down some
before we breathe as one
you are here
to keep me near
bound by light
intertwined until the end of time

In a cold, dark room

Lies the shadow beneath me
aching pains bend me at the knees
as the flame licks its way to my feet
gripping around my heart
suffocating my lungs
deep in the bottomless pit
numb from all existence
I am nothing
rage flooding my veins
filling my soul
but it's so cold
dark
lonely
heating my up
boiling my skin
flames ripping me from limb to limb
screaming out
you cant hear me
crying out
no one can hear me
in a cold dark room

Water to ice

Spark to flame
wind to power
earth to the tides of change
human to being
can't you see
we change our matter
but only to a reflection
of all the beautiful patterns
so lay your roots
because you are in pursuit
be the Mother tree
because all we can do is accept the truth
that will set you free
all things matter
even you
just as the elements
you can change too

Connected

Unlike ever before
magic pill
choosing blue
underneath our tongues
sparking back to life
you beneath me
around me
soul pouring into mine
cosmic cell of love
beneath the black sun
reality folding in
coupling me once again
lighting up the night
stars shining oh so bright
becoming one
one
once a again
